Ultimate and fluffy Shari (Rice) Ball

Compact Sushi Machine SSN-JLX-CE

Make Perfect Soft and Fluffy Nigiri Sushi Rice Balls

Creates consistent, high quality nigiri sushi rice balls using our proven technology for accurate measuring for perfect traditional shaped nigiri sushi rice balls without kneading, crushing, or cutting the rice grains.

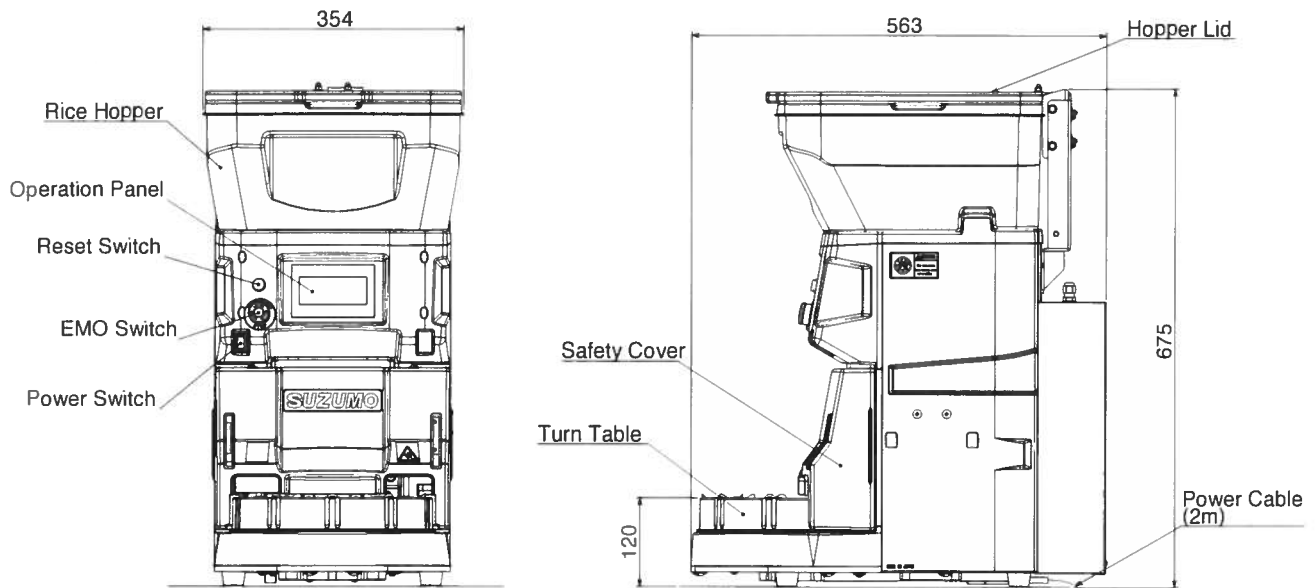

Easy User Operation

Simple operation using the LCD touch screen panel to adjust speed, softness, weight, and compression. Set user language preference in English, French, German, Spanish, Korean, Chinese, or Japanese.

Integrated Rice Warmer

Keep the sushi rice at the optimal temperature to allow for the output of warm nigiri sushi rice balls.

Dimensions

Specification

Model	SSN-JLX-CE
Capacity	3000, 3600, 4200, 4800pieces per hour (selectable) * in case of weight 22g setting, the maximum capacity may be lower.
Machine Dimensions	354Wx563Dx675Hmm
Input	AC220-240V, 50/60Hz single phase
Power Consumption	190W
Hopper Capacity	Approx. 10Kg
Weight per piece	Minimum 16g to maximum 25g * 12g to 16g requires different mold unit
Hardness Setting	Soft ⇄ Hard (7 steps adjustment)
Machine Weight	Approx. 30Kg
Optional Items	Transferring Unit

Features

- Compact design with easy loading of sushi rice into the machine.
- The integrated rice warming function keeps the rice at an optimal temperature for output of the ideal form and texture of the nigiri rice balls.
- Makes consistent and perfect soft and fluffy nigiri sushi rice balls without kneading and crushing of the nigiri sushi rice ball.
- Easy to view and use LCD touch screen display panel allows for quick customization and operation.
- Simple assembly and disassembly. Easy to clean, sanitize, and maintain.

*Design and specification subject to change without notice.

*Please follow the instruction in the operation manual when handling the machine.

*While capacity expresses the machine's performance capabilities, it is predicated upon the machine being operated correctly.
